

## J.A.G. scrapers with positive drive

For scrapers in circular basins with gear rack drive

Advantages:

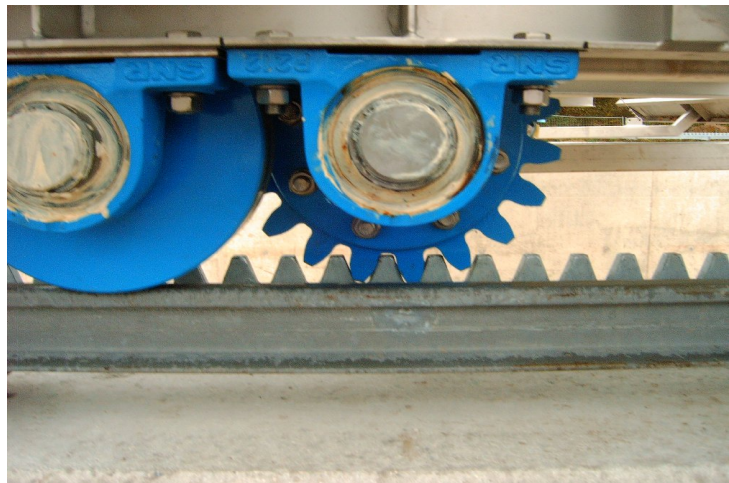

- Safe operation during winter
- No further costs for de-icing agents, heating costs for track housing
- Also suitable as retrofit for crests of "old" basins

## For scrapers in longitudinal basins with gear rack drive

### Advantages:

- Safe operation during winter
- No further costs for de-icing agents, heating costs for track housing
- Also suitable as retrofit for crests of "old" basins

### Beyond this we supply:

Waste water treatment equipment  
Rotary and suction sludge scrapers  
Longitudinal and suction sludge scrapers  
Rabble rake devices  
Manual and automatic track cleaning devices  
Horizontal cleaning
